

THE DAILY NEWS.

Newport:

THURSDAY, APRIL 20, 1848.

BY O. F. JACKSON, 91-THAMES-ST.

Advertisements will please bear in mind that the circulation of the DAILY NEWS is more than DOUBLE that of the Daily Herald, and greater than the combined circulation of the Daily and Weekly Herald. As one proof of this fact, the list of Letters remaining in the Post-Office is advertised in the NEWS, as BY LAW REQUIRED.

APRIL.—This month is so called from the Latin word *aperio*, to open in, allusion to the opening of the young buds and the general expansion of vegetation, which takes place at this season of the year. This is the only month whose name appears to have been given, with any reference to the season in which it occurs. *Zif* or *Ziv* was its name among the Jews, signifying glory, or splendor. It was the eighth of their civil, and second of their sacred year. In Saxon name it was *Eoster*, or *Oster-moeth*, *Ost* signifying *East*, and the wind, by ancient observation being found in this month most commonly to blow from the east.

GERMANY.—A private letter received by a German in Philadelphia, by the last steamer, which gives an account of the revolution in Prussia, states that in the conflict between the king's troops and the citizens on the 10th of March, the carnage had been immense. The number of soldiers killed amounted to about 1300, and more than one thousand citizens were slaughtered on that day. An expression of the king, that he would forgive them, which he is said to have uttered when the dead bodies of the slain citizens were carried in solemn procession past the palace, is said to have excited the wrath of the people anew, in consequence of which the king has either been forced to leave the city, or as others say, has been killed. The excitement throughout Germany is immense. At Hanover, near Frankfurt on the Main, forty arms were assembled on the 15th March. A committee called "Volke-commission," directed all their movements. Voluntary contributions and patriotism keep up these immense gatherings, and we may expect by the next steamer, events of the most soul-stirring character. Germany is ripe for a grand revolution. The intelligence, industry and patriotism of her people, cannot be chained any longer by a few despots. Her course will be onward, until united and free she will take such a stand among the nations of the earth, as she is, rightly entitled to.

WHITEWASHING.—This is the season of the year, when every body is cleaning house, whitewashing, &c., &c., and is one of the times that tries women's souls, as well as the men's. Whitewashers often occasion the house-cleaners much extra work, by daubing the floor with their lime, and in order to avoid this, careful and experienced hands should be employed, and such Charley Brown and his troupe will be found to be. From a knowledge of the manner in which they do their work, we can recommend them to all who have whitewashing to be done, as being first rate workmen. The company consists of Charles Brown, Isaac Rice, Jr., and Thomas Church, and orders may be left with either of them.

We have received a circular from the Corresponding Secretary of the American Art Union, announcing that the engravings due last year's subscribers, will be ready for distribution some time next month. They will be distributed in the order in which they subscribed.

WEST POINT.—The Union publishes a list of the names of the Cadets appointed this year. They are 70 in number distributed as follows:—From Maine 1, New Hampshire 1, Connecticut 1, Rhode Island 1, New York 7, New Jersey 4, Pennsylvania 6, Maryland 3, Virginia 2, North Carolina 3, South Carolina 2, Georgia 2, Kentucky 2, Tennessee 3, Ohio 10, Indiana 2, Illinois 3, Mississippi 1, Alabama 1, Missouri 2, Michigan 1, Arkansas 1, Wisconsin 1, at large 1.

Louis Philippe is talked of as a candidate for the Presidency of the United States, providing he should take up his residence in this country. He would no doubt, make a good run.

AN EXHAUSTIVE MILITARY DEPOT.—The United States Military Depot at Vera Cruz, under the direction of Capt. H. F. Masters, is on a very large scale. A late Vera Cruz letter says of it: "Connected with the Department are large blacksmiths, wheelwrights, ship carpenters and saddlers' shop; and, in fact every branch of mechanical business that is required. A great deal of time and labor is saved in transferring cargoes from the Mole to the street, by means of a railroad some 600 feet long, which has lately been laid by the Quartermaster. At the new coal depot at the castle, vessels can discharge in all kinds of weather, and steamers go alongside and take in their coal, thereby saving much time. They formerly loaded at Sacrificios, and were often obliged to wait several days in consequence of a norther. The trains from the city of Mexico and other points, consisting usually of from 200 to 500 wagons, are loaded and will return in a short space of time. About 200 mechanics, laborers, teamsters, and sailors are constantly employed at this point.

THE RUNAWAY SLAVES CAPTURED.—Washington, April 17th.—The vessel, that started from Washington on Saturday night, with kidnapped or runaway slaves on board, to the number of at least fifty from this District—some say one hundred in all—has been captured in Chesapeake Bay. She is a schooner, and came round from Jersey with a load of wood. Doubtless, the object of the trip was to carry the slaves in question to the North. The abolitionists may be safely charged with the transaction. The schooner, under a good breeze, had got into Chesapeake Bay, one hundred and fifty miles below this city, when captured by a steamer from Baltimore, several others having been sent after her, on receipt of telegraphic advices from this city.

LATE FROM MEXICO.—Advices from Vera Cruz in a late date, have been received at New Orleans. It was generally believed that the Mexican Congress dared not ratify the treaty. Lieut. Smith, of White's company of mounted men, has returned from Vera Cruz, taking several men with him, and offered their services to Zuloaga, the Guerrilla chief, who took them prisoners and sent word to Col. Wilson to send after them. They were taken back to Vera Cruz well secured.

Since the Mexican authorities have been restored to power, Paredes attempted a revolution, and was reported to have been arrested by orders of the Government.

News had been received from Antigua, confirming the rumor of Santa Anna intending to leave the country, and adding that he had refused the steamer offered by Gov. Wilson for his conveyance.

Nothing further has been received from Mexico, except that Gen. Scott was hourly expected at Vera Cruz, and that the Court Martial had adjourned to the United States.

A BRAVE WOMAN.—HOMICIDE.—There are few women, we fancy, who would have acquitted themselves in the manner of a Mrs. Roberts, living near New Albany, Indiana, on the Charleston road. It seems from an account published in the New Albany Bulletin, that an unknown man demanded admittance to Mrs. Roberts' house, in the absence of her husband. The lady inquired who was there, and what he wanted. The individual replied that he wanted admittance to the premises, which being refused he attempted to enter at the front door; but finding it locked, changed his position to a door at another part of the house, and stating at the same time, he intended to gain admittance "at the risk of his life." During this time, Mrs. R. had loaded a gun which she had in her possession, with a heavy charge of buckshot, and taking a deliberate aim by resting the piece upon a table, when the ruffian had forced him to enter the house, she fired and the whole contents lodged in the right side, causing almost instantaneous death. Thus perished a bold villain by the hand of a courageous female. The lady had two small children—with them she sought a neighboring house. A coroner's inquest was held. Verdict—"Justifiable homicide."

The head of St. Andrew, in the church of St. Peter's Rome, containing jewels worth thirty thousand crowns, has been stolen.

Wonderful Discovery.—Dr. Sylvester, an Italian by birth, and an eminent chemist, has discovered a mode of hardening the human body, to the consistency of stone or marble, which he is about to exhibit in London. His experiments have excited great astonishment. One was the head of a lady, with the hair parted and dressed, retaining its flexible properties and color, although the surface from which it grew, resembled stone—somewhat like a wax model; also a child's head, plump and dimpled as in life, and a tongue petrified as if it had never uttered a sound. The petrifying process is said to be simple and cheap. A bouquet of choice flowers—the juices first extracted by an aromatic process—preserved their color, but were as hard as if some cunning workman had carved them from Parian marble; for not only the leaves and petals were rendered stone-like, but the minute hair, forming stems were rendered coralline.

French West Indies.—The New Orleans Picayune announces the arrival at Bermuda by the last West India mail steamer, of Gen. Rostolan and Mons. Hugon, the former Governor of Martinique, and the latter, Director of the Interior of the Island. These gentlemen are understood to be commissioned by the Provisional Government of France to abolish slavery in Martinique and Guadeloupe; and are intrusted with discretionary powers—either to abolish slavery immediately, or prospectively. There was some doubt whether the Colonists would recognize the new Government or consent to the plan of emancipation; and there was considerable solicitude felt lest the doings of the Home Government should in some way reach the islands before the arrival of the Commissioners, and occasion an insurrection.

The Commissioners were understood to be averse to the plan pursued in the English West Indies, of immediate emancipation, as unsuited to the circumstances of the French islands.

The Last Rumor.—The New Orleans Evening Mercury of April 5th, professes to give an insight into the character of the instructions under which the Commissioners are intrusted with the task of abolishing slavery. It has been sent to Mexico. That paper states that Mr. Seyler, publicly declared, in reply to inquiries made by citizens of New Orleans as to the policy by which he intended to be governed in the negotiations, that if he could not secure a peace speedily he would at once resume a hostile position. Therefore (says the Mercury) the country may expect on his part immediate and effectual action.

Riot in Providence.—There was something of a riot in Providence, on Saturday evening, in consequence of the foreign population of that city interfering with the proceedings of a Native American meeting. The speaker was pulled from his stand, and the meeting broken up. Several of the rioters, however, ended the night in the Watch House.

LARGE FIRE IN ALBANY.—We have intelligence from Albany that a destructive fire occurred on the Little Basin, at that city, on Sunday, destroying eight or ten stores and dwellings, and three stables. The firemen had a severe riot on the occasion.

The bark Ann Louisa, in whose M. Nuiry, the defaulting New York clerk, took passage from New York, arrived at Matanzas on the 5th inst., in the unusually short passage of 10 days. The pilot boat E. K. Collins, which started in pursuit on the 27th, about twenty-four hours after the Ann Louisa left, did not reach Matanzas until the 7th.

Yesterday was the first stormy day we have had this month. It commenced snowing and raining in the morning and continued till the middle of the afternoon, but no snow accumulated.

A foreign medical writer, possessing candor, has lately asserted that "Physic is the art of amusing the patient, while nature cures the disease."

Sandy Bent & Co's circus is advertised to exhibit in Providence on the 24th, 25th, and 26th inst.

Gen. Taylor, under date of 20th February, declines, from private and personal considerations, accepting the invitation of the New York assembly to visit that State.

A fashionably dressed lady appeared in the streets of Philadelphia, on Tuesday, smoking a cigar.

CONVENTIONAL.—In the Senate, Tuesday, a petition was presented by Mr. Cameron, of Pennsylvania, from the citizens of Philadelphia, praying for the establishment of a post route between that city and New York, so as to do away with the monopoly of the Camden and Amboy Railroad, which was referred to the committee on the Post-Office. The California claim bill, after some discussion, was recommitted to the military committee without instructions. The Supreme Court bill was then taken up and discussed. No action.

In the House a resolution was adopted calling on the President for a copy of the correspondence between Gen. Scott and the war department. Mr. Boies, of Virginia, moved to suspend the rules, in order that he might offer a resolution inquiring of the President whether Gen. Scott had been suspended, and why, which was taken i years and nays, and decided in the negative. Adjourned.

Forty families of colored people are to leave New York city, the coming Spring to occupy the lands given by Garrit Smith in Franklin and Essex counties, in the State of New York.

The amount of property destroyed by fire in Boston during the month of March, was \$160,100. Insurance \$113,100. For the corresponding month last year, the loss was \$12,235. Insurance \$0,320.

Two thousand new buildings are under contract in and around Pittsburgh.
